

# FABRIC FORMED SINK

The process begins by using stretchy fabric stretch over designed object and harden by resin. Then using this as a form of glass fiber reinforced concrete. One advantage is you could get super complex double curved shapes easy. An endless option of design and creativity. The simplicity of the boxed shape with one surface stretch to drainage hole was the driven concept of design. FDA approved sealer.

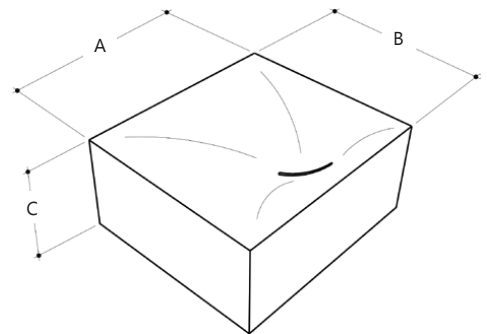

## STANDARD SPECIFICATIONS

White Gray Charcoal

Mounting options:  
Can be installed on wall cantilever  
with L brackets  
4" slot drain

size	weight
A B C	
26" x 20" x 6"	80lbs
32" x 20" x 6"	100 lbs
18" x 16" x 8"	80 lbs
18" x 16" x 1"	30 lbs
